-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Claims 1-52 are pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-5, drawn to compounds of formula (I) where Ar represents an aryl, classified in class 548, subclass 421.

II. Claims 1, 3 and 4, drawn to compounds of formula (I) where Ar represents a heteroaryl ring, classified in class 544, subclass 99.

III. Claims 6-34, drawn to compounds of formula (II), classified in class 546, subclass 62.

IV. Claims 35-52, drawn to Pharmaceutical compositions containing compounds of group I as defined above and methods of treatment using compounds of group I, classified in class 514, subclass 410.

V. Claims 35-52, drawn to Pharmaceutical compositions containing compounds of group II as defined above and methods of treatment using compounds of group II, classified in class 514, subclass 229.5.

VI. Claims 35-52, drawn to Pharmaceutical compositions containing compounds of group III as defined above and methods of treatment using compounds of group III, classified in class 514, subclass 285.

3. The inventions I through VI as defined above are patentably distinct, each from the other because they are structurally so divergent that a reference showing compounds of

invention I would not render compounds of inventions II and III prima facie obvious.

Search required for e.g; compounds of invention I in class 548, subclass 421 is not the same search required for e.g; compounds of invention II in class 544, subclass 99 or methods of treatment for groups IV, V and VI in class 514, subclasses 229.5, 285 and 410 and therefore, constitutes a burdensome search.

4. A telephone call was made to the applicant's attorney, Mr. Roger C. Rich on May 22, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. If the applicants elect group II, heteroaryl for variable Ar must be specified.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the

record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas McKenzie can be reached on (571)272-0670. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
